-

PROJECTS

Farm Assist – Smart Farming Management System | [LINK](#) December 10-March 24

- Developed a full-stack web application to streamline agricultural activities by integrating modules for farmers, farm officers, administrators, and end-users.
 - Implemented crop management, subsidy tracking, and equipment booking features, enhancing efficiency in farm operations and government scheme utilization.
 - Designed an intuitive admin dashboard to monitor product orders, tool rentals, user feedback, and field complaints for real-time decision-making.
 - Enabled two-way communication between farmers and officers, facilitating issue reporting, doubt resolution, and knowledge sharing through a dedicated chat system.
-

CERTIFICATES

Certified in Cyber Security Awareness (Red Team) | [CERTIFICATE](#) March- 2022

- Demonstrating foundational knowledge in cybersecurity principles and threat mitigation techniques.
- Gained practical insights into secure digital practices, enhancing awareness of cyber threats and responsible online behavior.

Flutter App Development(Cyra Learnings)| [CERTIFICATE](#) March -2025

- Developed a fully functional eCommerce mobile application using Flutter, gaining hands-on experience in cross-platform app design, UI/UX, and backend integration.
- Integrated real-time features such as user authentication, product listing, and payment gateway, enhancing the functionality and user experience of the mobile application.
